- I like him. He is very helpful and care to help.
- good TA
- Chris was by far the best and most helpful math TA that I've had this year. She was very enthusiastic about the material and explained it clearly. She also was by far the most friendly and outgoing TA that I've ever had. I would absolutely take her class again.
- wonderful TA, thoroughly prepared me for every quiz, understood material taught by them better than the professor.
- I LOVEE HER CLASS!!! SOO effective in class examples, and clearly wants all students to succeed. She helps me understand the concepts really good, and walks through the whole problems so effectively. Office hours and in class time. SHE HELPS SO MUCH I HAVE TO EMPHASIZE IT THROUGH CAPITAL WORDS. SHE MAKES SERIES FUN. I remember she was explaining telescoping, and it was such a fun topic to learn. She clearly knows what she is doing. LOVEEEE THE CLASS AND ILL MISS HER AS A TA. :(
- Very active and knows the content very well!
- Chris was a good TA. Explained topics well and helped students when they needed help. Overall, did a good job.
- Very approachable and enthusiastic when answering questions and concerns. I appreciate how they review relevant course material before quizzes and checks for understanding.
