- Excellent TA, clear and concise while also allowing anyone to mention their problems. Model instructor.
- Chris' discussion sections help clarify what is learned in class a lot. Very effective teaching!
- Very effective instructor. Clear and concise explanations behind concepts. Amazing at clarifying underlying conceptual ideas behind the math, and would wonderfully visualize them for us via drawings. Even during times of silence within class, Chris is always there to support us and will offer us clean work behind homework problems and etc. I'm sadden, personally, as I may never see Chris again, as they were one of the most enjoyable TAs I have ever had. They made me enjoy math again <3
