

UC RIVERSIDE - Student Comments of Instructor, Discussion Courses - Spring 2021

Course: MATH 131 Section: 003 - LINEAR ALGEBRA I
Instructor: Chris Grossack

Question # 18: YOUR CONSTRUCTIVE COMMENTS ON YOUR GRADUATE STUDENT INSTRUCTOR'S TEACHING SKILLS ARE EXTREMELY IMPORTANT. PLEASE WRITE YOUR COMMENTS IN THE TEXTBOX BELOW. PLEASE LIMIT YOUR COMMENTS TO 2000 CHARACTERS.

- Chris was a great TA. They were very helpful throughout the entirety of the course and were always available; however, on a rare occasion, they weren't completely organized or didn't have a plan going into the class, which took a few minutes out of our scheduled discussion time.
- Very great at explaining step by step processes and concepts. Really enjoyed the class discussions
- Chris was a great discussion TA for Math131 this quarter and I found that they often would clear up any confusion I would have on a topic. They were helpful and clear with their explanations of the material and I only wish that they were allowed more time to teach and explain the week's content rather than being restricted with group presentations that took up much of the discussion time, though that was not Chris' fault.
- Chris is an amazing TA who is clearly very well-knowledged on the material for this course. They were always so kind and considerate to the students during discussion and made the material a lot more understandable. Chris has always answered my emails and I really appreciated that they were always so patient given that they have a busy schedule. Whenever they went over the material in class, it was always extremely well delivered and explained. Overall, Chris did a fantastic job this quarter.
- They were willing to answer any question we had, and made this class easier to understand. They were very helpful, and overall a great TA
