

UC RIVERSIDE - Student Comments of Instructor,  
Discussion Courses - Fall 2021

Course: MATH 131 Section: 003 - LINEAR ALGEBRA I  
Instructor: Chris Grossack

**Question # 18:** YOUR CONSTRUCTIVE COMMENTS ON YOUR GRADUATE STUDENT INSTRUCTOR'S TEACHING SKILLS ARE EXTREMELY IMPORTANT. PLEASE WRITE YOUR COMMENTS IN THE TEXTBOX BELOW. PLEASE LIMIT YOUR COMMENTS TO 2000 CHARACTERS.

- good
- Great TA, and super friendly! The only thing was a lack of organization both in discussion and with regard to online resources being posted. Worksheets for example were never posted. Also, work was sometimes more informally shown, and was therefore less helpful.
- Chris is very knowledgeable about the material they are teaching. Their teaching style is very effective to help students first see how a problem is solved and then be able to verbally explain the steps afterwards. I really appreciate the time they take to answer student's questions, along with checking for understanding as we go. Overall, discussion was very helpful to my learning of the content of this class.
