

UC RIVERSIDE - Student Comments of Instructor,  
Discussion Courses - Winter 2023

Course: MATH 006B Section: 033 - INTRO:COLLEGE MATH  
FOR SCI

Instructor: Chris Grossack

**Question # 18:** YOUR CONSTRUCTIVE COMMENTS ON YOUR GRADUATE STUDENT INSTRUCTOR'S TEACHING SKILLS ARE EXTREMELY IMPORTANT. PLEASE WRITE YOUR COMMENTS IN THE TEXTBOX BELOW. PLEASE LIMIT YOUR COMMENTS TO 2000 CHARACTERS.

- This teacher was very helpful and did a better job than the lecture teacher in making sure the students understood the material. I believe the reason I was able to succeed in this class was because of this teachers discussion section.
- Chris was a nice TA that knew how to handle our questions. Chris always answers our questions to the best of their ability. The only bad part is that sometimes Chris takes a while to answer emails. Overall, a solid TA for sure.
- great at answering questions in discussions, helped me understand better
- Very understanding and really helpful when asking them questions about the math worksheets.
- Chris's discussion class was one of my most useful classes I had this quarter. They were always so helpful and willing to help in any step of a question. It really showed how much they really wanted to help us out which I really appreciated. It would be amazing to have them as a TA during my calc series since I really understood the way they explained math concepts. Overall, an amazing TA who strengthen my learning in Math 6B.
- They were a good TA, made it easy to understand and comfortable to ask questions.
- They explained every concept with confidence, ease, and easy to follow lines of reasoning. Every question I had was answered and I found such clarity. They were always willing to help and reexplain. There is nothing negative to say.
- Though we would ask questions about the problems on the worksheet, I felt as if they did not really explain the problems that well. Sometimes I felt as if my question was not really answered, or I felt more confused.
- Christopher taught me more than the Professor. Christopher went thoroughly into any questions we asked and explained them in a well-mannered way that we were able to understand easily. Always ready to help and helped me a lot to understand the material much more.

10/10.
