**Question # 18:** YOUR CONSTRUCTIVE COMMENTS ON YOUR GRADUATE STUDENT INSTRUCTOR'S TEACHING SKILLS ARE EXTREMELY IMPORTANT. PLEASE WRITE YOUR COMMENTS IN THE TEXTBOX BELOW. PLEASE LIMIT YOUR COMMENTS TO 2000 CHARACTERS.

- Great TA. Chris explains the concepts in discussion very well, and I am able to complete worksheets with given explanations. Also grades fairly, and overall makes Math enjoyable.
- I really enjoyed the class and left feeling that I understood the material better than when I had entered.
- Very optimistic teaching. Motivates me to try harder in math
- No presentation but there were worksheets to help us apply the information we learned in class. Instructor was helpful in reviewing concepts and going over difficult questions in the homework. They were effective in going over the steps to achieve a result and slowing down when students became confused. Friendly and always asked if we had any questions, and if there was a question that they didn't have a concrete answer to, they admitted that and would get back with an answer from the professor.
- Amazing TA. Has a good knowledge about stuff and helped a lot
- Chris was amazing! She was very knowledgeable, and she took her time explaining the material to us. She answered every question we had and always checked in on us to make sure that we understood the worksheets.
