

UC RIVERSIDE - Student Comments of Instructor,
Discussion Courses - Spring 2024

Course: MATH 010B Section: 003 - CALCULUS:SEVERAL
VARIABLES

Instructor: Chris Grossack

Question # 18: YOUR CONSTRUCTIVE COMMENTS ON YOUR GRADUATE STUDENT INSTRUCTOR'S TEACHING SKILLS ARE EXTREMELY IMPORTANT. PLEASE WRITE YOUR COMMENTS IN THE TEXTBOX BELOW. PLEASE LIMIT YOUR COMMENTS TO 2000 CHARACTERS.

- I like that you come prepared with a set of problems that you have in mind that relate back to the lecture material. I think it's a good thing that you always check if we have any questions that we'd like to go over before we begin the class, whether it be a quiz problem or a homework problem.
- I really enjoyed having Chris as a TA for this class this quarter. The way they would use class time to address any concerns from the students is probably the best way to teach for this class.
- Discussion lessons are helpful. Questions asked in discussion would help me in understanding.
- N/A
- Such a sweet person, I wish them the best in their teaching career.
- Discussions were helpful for homework but we would always have to be the ones to bring up difficult homework problems. I sort of wish Chris would be prepared by having looked at the homework and maybe have some example problems based on the homework to go through with us.
