

UC RIVERSIDE - Student Comments of Instructor,
Discussion Courses - Winter 2023

Course: CS 011 Section: 006 - INTRO TO DISCRETE
STRUCTURES

Cross Course: MATH 011 Section: 006

Instructor: Chris Grossack

Question # 18: YOUR CONSTRUCTIVE COMMENTS ON YOUR GRADUATE STUDENT INSTRUCTOR'S TEACHING SKILLS ARE EXTREMELY IMPORTANT. PLEASE WRITE YOUR COMMENTS IN THE TEXTBOX BELOW. PLEASE LIMIT YOUR COMMENTS TO 2000 CHARACTERS.

- Sometimes explained things very fast but overall was a very good instructor and helped improve on the regular lectures.
- Overall, he is an adequate TA. He has a good understanding of the subject as a whole and at times his knowledge rivaled that of the actual professor himself. His discussions answered a lot of the questions that the professor may have not been able to cover during the previous lectures. Ultimately, I think he is doing a solid job as a student instructor. I would recommend him for sure.
- Chris is one of the best TA I have ever seen. They are really good at explaining the materials and they are really professional. They are very responsible and very helpful. I really appreciate their efforts!
- Chris has been an extremely good TA, and they helped me learn the material in a far better way than in even the lecture or the homework videos. They always put up some very helpful analogies, such as one I remember for induction proofs, and then they tried to connect material to the real world, which helped make it much less abstract. Overall, Chris was an excellent TA who helped me thoroughly understand the material, and I have no feedback/criticisms for them
