- bad
- Perfect TA!
- Awesome TA. I am glad to have them again this quarter. I do notice that they can get carried away with chatting to classmates rather than talk about the material, but it's hard to ask questions in person. It was a lot easier to ask questions in the chat. I believe that they are very good at answering questions, but there was a slight disconnect with what the professor was teaching and what Chris taught sometimes. It was basically different approaches for the same content which was good in a sense. Thank you Chris and I hope your Ph.D goes well!
