

UC RIVERSIDE - Student Comments of Instructor,  
Discussion Courses - Winter 2022

Course: MATH 165A Section: 002 - INTRODUCTN TO COMPLEX  
VARIABLES

Instructor: Chris Grossack

**Question # 18:** YOUR CONSTRUCTIVE COMMENTS ON YOUR GRADUATE STUDENT INSTRUCTOR'S TEACHING SKILLS ARE EXTREMELY IMPORTANT. PLEASE WRITE YOUR COMMENTS IN THE TEXTBOX BELOW. PLEASE LIMIT YOUR COMMENTS TO 2000 CHARACTERS.

- Overall, Chris has been an amazing TA this quarter. They listen well to our questions as students and give good clarification when explaining concepts in the class. Chris also makes the office hours and discussion sections feel comfortable and welcoming. I feel like I can ask any questions, no matter how dumb they may be! I would love to have Chris as a TA for another class in the future.
- Chris really carried this course so hard that their shoulders must hurt. I honestly found Dr. Wong to be a terrible instructor, so I had to rely quite heavily on the TA for this course. Thankfully, Chris has been incredibly helpful. They've given very clear explanations on how to do certain problems, and would also clarify lecture material. The discussion sessions would also be held at a very good, brisk pace. Chris was also very friendly, and definitely gave the impression of caring about their students. They were very accessible and helpful in office hours. I absolutely love the review sessions prior to exams, and the fact that they could be up to two hours long was amazing. If I had to give any criticism, I wish they would respond more often to emails.
