- Good TA, really knew their stuff. A bit disorganized at times when it came to printing out material, but not a serious mark against them at all. Would be happy to have them as a TA again.
- Chris is a very helpful instructor. They have a very positive energy and are always open to answering any question. I always knew that I could go to them for any help. Their explanations are thorough and they pay attention to individual students and their needs.
- I am really happy to have them as my TA. Their discussion sections and office hours helped me not only understand the material but also gave me confidence for 9C. They are really caring and easy to talk to. 10/10
- I thought that Chris was a great TA. They were always available to help students and the discussion sessions was a great way to clarify any questions I had from the lecture. Overall, I am happy that Chris was my TA.
- Overall they know where the material comes from and tell us why and how it comes for it. Good at explaining in a way that is understandable. Is very helpful.
